How to install

Install ready-to-paste package (Recommended)

Installation guide:

https://www.mageplaza.com/install-magento-2-extension/#solution-1-ready-to-paste

How to upgrade

Backup

- Backup your Magento code, database before upgrading.
- Remove ProductAttachments folder
- In case of customization, you should backup the customized files and modify in newer version.
- Now you remove app/code/Mageplaza/ProductAttachments folder. In this step, you can copy override ProductAttachments folder but this may cause of compilation issue. That why you should remove it.
- Upload new version
- Upload this package to Magento root directory
- Run command line:

```
php bin/magento setup:upgrade

php bin/magento setup:static-content:deploy
```
